

Submission Instructions

- After the completion of each task, display the file using cat command and then take screenshots.
- Any mismatch in name/email → marks deducted

Task 1: File Creation using echo & cat

1. Create file:

```
echo "text-content" > file1.txt
```

2. Append text:

```
echo "Learning vi editor" >> file1.txt
```

3. Display content:

```
cat file1.txt
```

4. Create File Using cat

```
cat > file2.txt
```

- Write 3 lines
- Press **Ctrl + D**

Then display:

```
cat file2.txt
```

Task 2: Copy Content Between Files

```
cat file1.txt > file2.txt
```

Check:

```
cat file3.txt
```

Task 3: vi + Git Configuration

1. Set editor:

```
git config --global core.editor "vi"
```

2. Check editor:

```
git var GIT_EDITOR
```

3. Set your details:

```
git config --global user.name "Your Name"
```

```
git config --global user.email "your@email.com"
```

Task 4: Create and Write File using vi

1. Create a file:

```
vi your_name.txt
```

2. Write:

- Your Name
- Course
- 3 lines about yourself

3. Save and exit using:

```
:wq
```

Task 5: Editing Practice (Insert + Navigation)

Open the same file:

```
vi your_name.txt
```

Perform:

- Add a new line at top using **O**

- Add a new line at bottom using `o`
- Add text at end using `A`

Save changes.

Task 6: Delete Operations

Inside file:

- Delete one character → `x`
- Delete one full line → `dd`
- Delete till end of line → `d$`

Save file.

Task 7: Copy-Paste in vi

- Copy a line → `yy`
- Paste it twice → `p`
- Paste above → `P`

Save and exit.
